SKILLS

- MYSQL
- HTML
- C
- java
- python
- AutoCD
- Matlab
- Kotlin

CERTIFICATIONS

- Circuit Simulation Onramp
Simscape Onramp
- AI for Future Workforce program
- Introduction to Python
Programming for Data Science
- Digital101-30 Hours CERTIFICATE
COURSE IN PROGRAMMING IN C
- Introduction to UI/UX Design
using figma

PROFILE

Motivated B.Tech Computer Science student with a minor in Biotechnology Engineering (BT). Interested in software development, UI/UX design, mobile application development and MySQL databases. Possesses basic knowledge of programming and database concepts with experience in academic projects. Eager to learn new technologies and develop practical skills in the field of computing.

EDUCATION

2024-2028 SAHRDAYA COLLEGE
OF ENGINEERING AND
TECHNOLOGY B.Tech (currently
pursuing)

2022-2024 PANANGAD HSS,
Kodungallur (Higher Secondary
Education)

2022 OLFGHS MATHILALAKAM
(Secondary Education)

PROJECTS

- **AGRI GUARD** – IoT-Based Smart Farming System
Designed and developed an automated system to protect crops from wildlife and optimize irrigation. Utilizes sensors and IoT technology for real-time monitoring, reducing water wastage, manual labor, and improving crop yield. (Award-winning project)
- **GLIMPX** - A Python-based web application designed to simplify and centralize event planning, connecting users and adminis through a seamless interface..
